

Biography

Pauline I. Stacey, EMBA

Pauline earned an MBA (Masters in Business Administration) degree from Florida Atlantic University in Environmental Management. With a BA in Business Management from FAU, Pauline's love for the South Florida environment and her keen interest in having a positive impact on the South Florida Ecosystem led her to pursue this newly degreed program, which explores management of global environment, management of natural systems, environmental information systems, environmental law and assessments, and international environmental management of land, air, and water.

She was the recipient of three Environmental MBA Scholarships – Ethics Scholarship, Katz Scholarship, and Florida Atlantic University National Alumni Association Scholarship. After graduating, Pauline served as a two-term board member of the Board of Directors for the Florida Atlantic University National Alumni Association and is a member of Florida Association For Environmental Professionals, and several other environmental organizations including The National Audubon Society.

Her professional experience includes, but is not limited to:

- Environmental field site assessments
- Environmental observation reports - preparation and/or coordination of data input for various Environmental Assessments and Environmental Impacts Statements
- Interfacing with local and federal agencies for environmental resource permitting project meetings and permit applications
- Quarterly environmental compliance monitoring for clients and agencies involving wetland, mangrove, and preserve maintenance
- Coordination of sampling and preparation of monitoring reports for a variety of clients and agencies involving freshwater and estuarine wetlands habitats
- Species observation in the wild
- Technical Scientific Abstract Re-Writes - U.S. Department Of Commerce– National Oceanic and Atmospheric Administration (NOAA)
- Annual Reporting for NOAA/National Underwater Research Program and Bahamian Government – Perry Institute For Marine Science
- Certified Inspector for the **Florida Department of Environmental Protection Stormwater, Erosion, & Sedimentation Control**

Ms. Stacey's professional experience also includes a tenure with Florida Power and Light Power Systems Transmission Projects, Siting and Permitting Team. She has had the unprecedented experience of participating in the preparation and selection of the study area and preferred alternative routes for the largest transmission line project in FPL's history.

In addition, Pauline is a nature and wildlife photographer whose focus is on the Everglades. Her photos can be seen and purchased on the web site that she built and designed at <http://www.environmental-matters.org/>.
